Relevant Employment History

UI Developer, Bristol Myers Squibb, Lawrence NJ

NOVEMBER 2023 – MAY 2024

- Redesigned pages, created new AEM fragments, & added new functionality based on AdobeXD mock-ups.

Developer, Bloomin' Brands, Remote

AUGUST 2019 – NOVEMBER 2023

Utilizing semantic HTML, CSS, SCSS, and JavaScript for all of the following:

- Took the lead on development & design of *Aussiegrill.com* & TenderShack.com.
- Main contributor to WCAG 2.1 compliance for 6 major brand websites/e-commerce platforms (Outback, Carrabbas, Bonefish Grill, Dine-rewards, Aussiegrill, Tendershack).
- SME for accessibility, contact point for third-party auditors.
- Worked with other devs on redesigns, updates, new pages, & bug fixes across all brands.
- Created dev & qa builds and change requests in Azure.
- Collaborating with other developers (in person and remotely), QA teams & marketing teams.
- Assigned PBIs to & performed PR reviews for our junior developer.

Junior Web Developer, Branded Holdings, Carrollwood, FL

JULY 2018 – MAY 2019

- Utilized React & SCSS to redesign/edit components and add/remove content.

Personal Projects

Aussie Grill - React/React Bootstrap

- Originally created as an HTML/CSS site for Bloomin' Brands, then recoded as a personal project in React & React bootstrap. Uses class based components & hooks.
- WCAG 2.1 AA compliant & mobile first. [Site](#) | [Source code](#).

TenderShack - Bootstrap / HTML / SCSS

- Collaborated with marketing & developed this website on a tight deadline. [Site](#).

Movie Search — JavaScript (ES6)

- Built with the Fetch API. [Site](#) | [Source Code](#)

Dream Log — JavaScript (ES5)

- Prototypes & constructor functions. This project gave me a deeper understanding of what's under the hood. [Site](#) | [Source Code](#).
